DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 1-15 rejected under 35 U.S.C. 103(a) as being unpatentable over Williams (6132311) in view of Hachquet (6050568).

Williams teaches dealing five partial hands each having two common cards (32,36), dealing and completing each of five hands to five card poker hands (abstract), determining each hand for poker ranks and paying according to pay schedules. Williams teaches all limitations except that it does not deal four face up cards in each hand.

It is well known in the art of casino games that casinos want to make money as fast as possible. Dealing four face up cards will allow players to wait for only one additional card instead of two or three cards which would slow down the game.

In order to maintain a fast pace, it would have been obvious to spend least time dealing additional cards. One of ordinary skill in art at the time the invention was made would have dealt four face up cards for completing the game quickly.

Williams teaches all limitations except that it does not teach dealing each hand from its own deck of cards.

Hachquet teaches dealing each hand from its own deck of cards (abstract). It will be easily understood that dealing identical cards in multiple hands is not possible without using separate decks for dealing separate hands.

One of ordinary skill in art at the time the invention was made would have used separate decks of cards for separate hands.

Note that pay schedules as in claims 4,5,9,10,14,15 are determined by gaming houses according to their financial requirements.

Applicant's newly added limitation of each hand having five cards is clearly taught by Williams (see abstract).

Response to Arguments

2. Applicant's arguments filed 4/2/04 have been fully considered but they are not persuasive. It is common knowledge that with four cards face up there will be less time required by a player to think to determine whether the player stands a chance of making a winning combination of cards with only one additional card to be dealt. Applicant's method steps are within scope and spirit of Williams' game.

It is also common knowledge that there is no other way to deal identical face up cards without dealing from independent decks of cards.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
